

## **Professional Land Surveyor**

Atlas Surveying, Inc. is a 50+ person land surveying firm with offices in Savannah/Hilton Head, Charleston, and Charlotte. We are aware that you can't keep great, motivated, career-oriented individuals without creating opportunities for them to continue to advance in their chosen profession. Therefore, not only are we looking to grow our current locations, we are examining Columbia, Raleigh, Myrtle Beach, Jacksonville, Orlando and other markets. If Land Surveying is your chosen career, we would like that to be with Atlas Surveying. We are accepting resumes for the position of **Professional Land Surveyor** to supervise and manage projects in the States of Georgia, South Carolina and North Carolina. Must be an experienced survey professional to provide day to day coordination of work and supervision of the survey staff and field crews. This position also requires strategic planning and the ability to negotiate, market, develop, and implement contracts and/or subcontracts for survey services, including, but not limited to, topographic, boundary, and ALTA surveys, as-builts, platting and construction layouts, and metes and bounds descriptions. The position is required to learn and be proficient in office practices, standards and various software programs. Must be dependable, team and goal oriented, client focused and forthright in resolving issues. Positions of advancement within the company are available.

### **Desired Skills and Experience:**

- Licensed in the states of SC, GA, NC, and/or FL.
- Multiple state licenses a plus.
- Five years of land survey post-licensure experience required.
- Knowledge in use of GPS and electronic data collectors and monitors.
- Proficient in OSHA/Safety regulations.
- Up-to-date knowledge of public agency codes, processes and standards.
- Must maintain continuing education requirements for licensure.

### **Essential Duties and Responsibilities:**

- Prepare boundary surveys.
- Establish objectives/goals, costs and maximum use of assets relating to projects.
- Respond to inquiries from clients, local and municipal authorities.
- Assemble field data, perform survey calculations, and prepare legal descriptions.
- Provide quality control and quality assurance on all project work.
- Prepare and monitor project budgets and billing of clients.
- Approve and seal professional surveying documents and survey certifications.
- Ability to communicate effectively, both orally and written.
- Perform other related duties as assigned.
