

## **Survey Instrument Operator**

Atlas Surveying, Inc. is a 50+ person land surveying firm with offices in Savannah/Hilton Head, Charleston, and Charlotte. We are aware that you can't keep great, motivated, career-oriented individuals without creating opportunities for them to continue to advance in their chosen profession. Therefore, not only are we looking to grow our current locations, we are examining Columbia, Raleigh, Myrtle Beach, Jacksonville, Orlando and other markets. If Land Surveying is your chosen career, we would like that to be with Atlas Surveying. We are accepting resumes for the position of **Survey Party Instrument Operator** at all three locations. Responsibilities include construction staking; the completion of as-built, boundary, title and topographic surveys, as well as the completion of wetland & OCRM delineations, under the direction and supervision of an experienced Survey Party Chief.

### **Desired Skills and Experience:**

- Previous land survey experience a plus.
- Knowledge in use of GPS and electronic data collectors a plus.
- Ability to bend, stoop, reach and lift 75 lbs. Mental and physical labors are part of this job.
- Must be honest, dependable, thorough and safety conscious, with a strong work ethic.
- Must be self-driven and able to work with little or no supervision.
- Must have current and valid driver's license with MVR that meets Company requirements.
- Must be willing and able to enroll in OSHA and other compliance & policy programs.
- Working conditions can be indoors or outdoors and the job is subject to extreme weather conditions.

### **Essential Duties and Responsibilities:**

- Stakeout of a variety of construction projects.
- Topographic surveys and x-sectioning.
- Perform mathematical calculations, field checking & field data.
- Take accurate and clear notes and perform notes reduction.
- Read and understand plans and specifications.
- Know basic sources of measurement errors.
- Know principles of monumentation, staking and marking.
- Responsible for quality control and performance of all work.
- Responsible for the maintenance of all Company equipment and Company vehicle.
- Self-motivated and organized with good decision-making skills.
- Completion of timely & accurate time and expense activity.
- Responsible for meeting with clients and public land owners as a representative of the Company.
- Flexible and adaptable to change.
- Perform other duties as assigned.
