

Survey Project Manager
Amec Foster Wheeler
Corpus Christi, TX

Amec Foster Wheeler (www.amecfw.com) designs, delivers and maintains strategic and complex assets for its customers across the global energy and related sectors. Employing around 35,000 people in more than 55 countries and with 2016 revenues of £5.4 billion, the company operates across the oil and gas industry - from production through to refining, processing and distribution of derivative products - and in the mining, power and process, pharma, environment and infrastructure markets. Amec Foster Wheeler offers full life-cycle services to offshore and onshore oil and gas projects (conventional and unconventional, upstream, midstream and downstream) for greenfield, brownfield and asset support projects, plus leading refining technology.

Amec Foster Wheeler shares are publicly traded on the London Stock Exchange and its American Depository Shares are traded on the New York Stock Exchange. Both trade under the ticker AMFW.

Our Environment & Infrastructure Americas business is a leading environment and infrastructure, engineering, consulting and project management organization with about 175 offices and more than 6,000 employees. Our business locations reach from northern Canada to southern Chile and across the UK and Continental Europe. We provide a full range of services to clients in the power, government, industrial, mining, transportation, pharmaceutical, water, and oil & gas sectors.

We offer competitive salaries along with a complete benefits package including: medical, vision, & dental coverage, 401K Matching, Educational Reimbursement, and a variety of Training and Development Programs to help you develop the skills you need to succeed in your chosen career path.

Role Overview

Amec Foster Wheeler is currently seeking a **Survey Project Manager** to join our team. The successful candidate will be responsible for providing verification and construction support surveying for a large industrial complex near Corpus Christi. The candidate may also work to promote Amec Foster Wheeler's project construction staking services and other land surveying services to other private firms and government agencies with a goal of developing and retaining clients. They will be responsible for the procurement of work for land survey services with an emphasis on industry. Responsibilities include the development of scopes of work and associated fees for contractual agreements along with the management of budgets, timelines, staff and billings for survey construction projects. The individual will perform QC and QA checks of both staking layouts and the data collected of as-staked points.

The successful candidate will also be provided Unmanned Aerial Systems pilot training to learn to safely operate both fixed-wing and multi-rotor UAS. The training will consist of Part 107 exam preparation, UAS flight training, Trimble flight training, and hands-on practical flight and equipment training, therewith obtaining a valid FAA certified Remote Pilot License.

Accountabilities

- Develop and maintain professional relationships within local industry and with government agencies
- Deliver high quality work on schedule and within agreed budgets keeping client satisfaction as a focal point

Skills / Qualifications

It is preferred that the applicant be a Texas Registered Professional Land Surveyor (RPLS) and have a minimum of 10 years of Land Surveying experience, three of which must have been as a Survey Project Manager or in a similar supervisory position. A degree in Land Surveying or a related field is preferred. A combination of education and experience totaling ten years may be accepted as qualifications for this position. This position will require:

- Effective written and verbal communication skills
- Experience in developing project cost estimates, contract reviews and negotiations
- Ability to work independently and as part of a team
- A strong work ethic
- Excellent organizing and time management skills
- Technical skill in the use of Trimble survey equipment and processing software
- An ability to create field layout plots and points for field staking using AutoCAD 3D
- Thorough understanding and interpretation of construction design drawings
- Excellent supervisory skills
- Must pass drug test, fit-for-duty medical exam, background check, and must have a satisfactory driving record in accordance with the Company's driving (MVR) policy

If you believe you have the necessary knowledge, experience and enthusiasm to succeed in this position, then we would like to hear from you.
